# Supernova Plus Cover

# Supernova Plus Cover

## Supernova Cover features & benefits

- 
**Breathable**  
 Prevents moisture from the ground from condensing on the underside of the cover, avoiding damaging moulds on forage.
- 
**Tear-resistant**  
 Supernova Plus Cover is extremely robust, wind-proof and durable.
- 
**Hydrophobic**  
 Makes the greatest part of water and snow slide on the surface.
- 
**UV rays protection**  
 Supernova Plus Cover is a strong barrier against UV rays. It prevents damages and losses. The UV treatment also protects the cover for years.
- 
**Reusable**  
 Thanks to its robust structure and UV treatment, Supernova Plus Cover is durable and reusable multiple times.

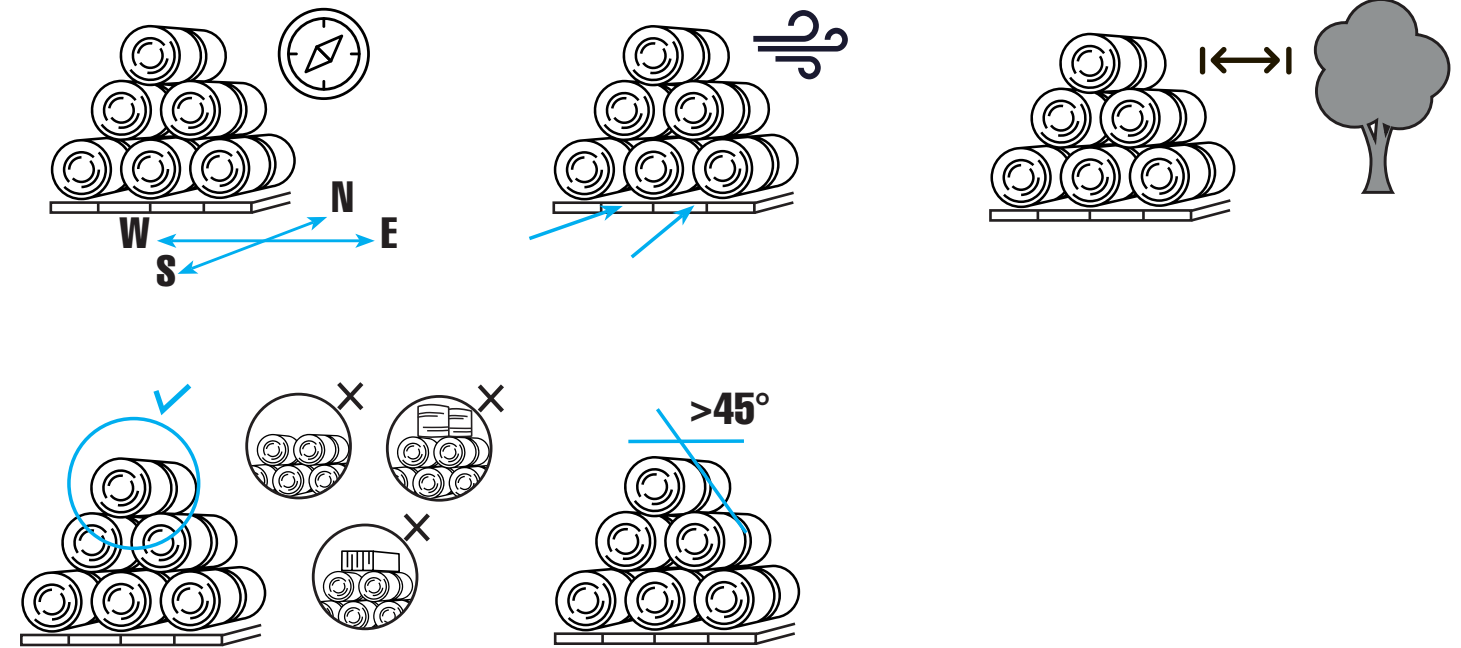

## SUPERNOVA

Supernova Plus Cover is:

- highly breathable, no more moulds and damaged bales
- a perfect UV rays barrier
- a secure protection from rain and snow avoiding that the majority of water reaches the bale surface
- tear-resistant and windproof
- sustainable since recyclable, durable and reusable
- 160 g/m<sup>2</sup>

## Quick User Guide

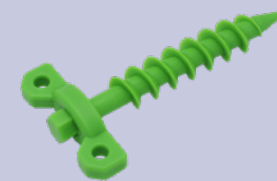

“  
Supernova Plus Cover, extraordinary coverage power: 160 g/m<sup>2</sup>”

Width (m)	9,80	9,80	12,20	15,60
Length (m)	12,50	25,00	25,00	25,00
Bales covered	up to 60	up to 120	up to 200	up to 300
Rolls per pallet	12	8	8	8

Based on the number of bales to be covered, you will find the most suitable size for the dimensions of your bale stack.

## Accessories

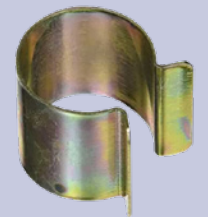

### Plastic screw

Thanks to these screws, you can anchor Supernova Cover firmly, ensuring tightness also during windy days.

### Velcro Hook Tape

The Velcro Hook Tape is a great help when you need to match up multiple Supernova Covers to protect a longer bale stack.

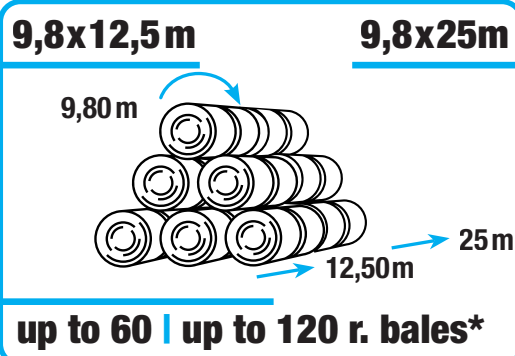

### Metallic clip

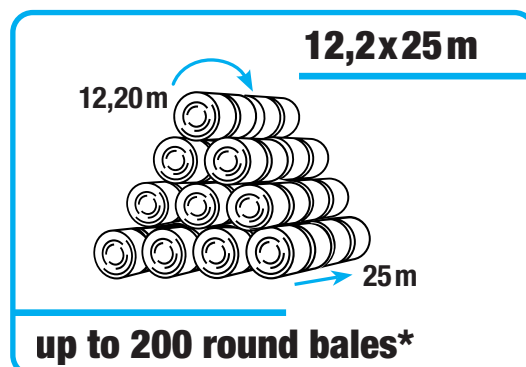

In order to anchor firmly Supernova Cover on the stack, we suggest adopting 1-inch metal pipes and metal clips.
