# Supernova Stack Cover

# Supernova Stack Cover

## Supernova Cover features & benefits

- 
**Breathable**  
 Prevents moisture from the ground from condensing on the underside of the cover, avoiding damaging moulds on forage.
- 
**Tear-resistant**  
 Supernova Stack Cover is extremely robust, wind-proof and durable.
- 
**Hydrophobic**  
 Makes the greatest part of water and snow slide on the surface.
- 
**UV rays protection**  
 Supernova Stack Cover is a strong barrier against UV rays. It prevents damages and losses. The UV treatment also protects the cover for years.
- 
**Reusable**  
 Thanks to its robust structure and UV treatment, Supernova Stack Cover is durable and reusable multiple times.

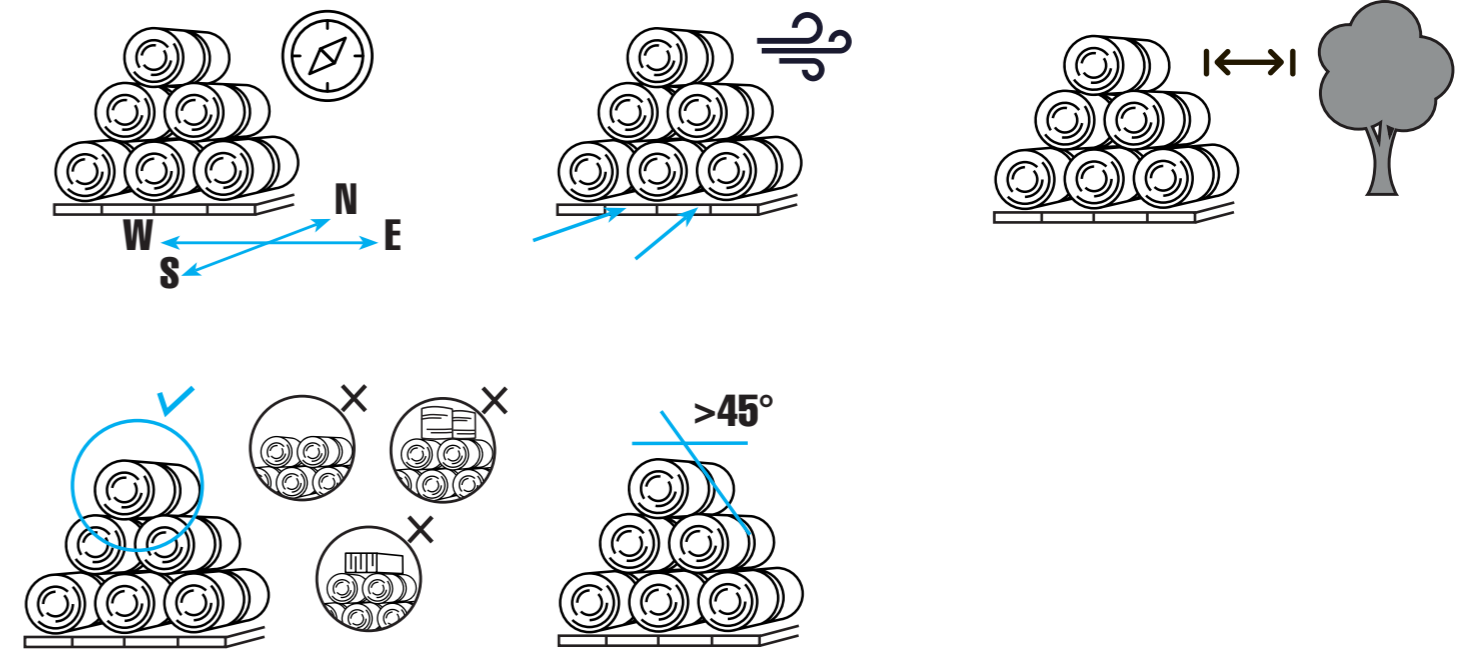

## SUPERNOVA

Supernova Stack Cover is:

- highly breathable, no more moulds and damaged bales
- a perfect UV rays barrier
- a secure protection from rain and snow avoiding that the majority of water reaches the bale surface
- tear-resistant and windproof
- sustainable since recyclable, durable and reusable
- 140 g/m<sup>2</sup>

## Quick User Guide

Supernova Stack Cover, protects and dries quickly!

Width (m)	9,80	9,80	12,20	15,60
Length (m)	12,50	25,00	25,00	25,00
Bales covered	up to 60	up to 120	up to 200	up to 300
Rolls per pallet	12	8	8	8

Based on the number of bales to be covered, you will find the most suitable size for the dimensions of your bale stack.

## Accessories

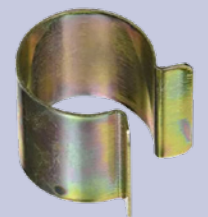

### Plastic screw

Thanks to these screws, you can anchor Supernova Cover firmly, ensuring tightness also during windy days.

### Velcro Hook Tape

The Velcro Hook Tape is a great help when you need to match up multiple Supernova Covers to protect a longer bale stack.

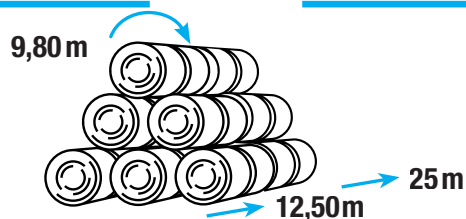

### Metallic clip

In order to anchor firmly Supernova Cover on the stack, we suggest adopting 1-inch metal pipes and metal clips.
